Address _____

The mare owner agrees to pay the Breeding Fee of \$1000.00, consisting of a booking fee of \$250 (non-refundable) and the balance of the breeding fee \$750.00 (to be paid before the removal of the mare from Greentree Ranch). If any subsequent year(s) breeding is necessary, after 2008, a re-booking fee of \$100 is required.

Board shall be charged at the rate of \$6.00/day for an open mare, \$10.00/day for a mare and foal plus any veterinary and or farrier fees incurred on behalf of the mare. No application for registration shall be signed until all accounts have been satisfactorily settled. This agreement covers 2 years only - 2008 and 2009.

This is a live foal contract meaning Greentree Ranch guarantees a live foal from this mating. A live foal is one that will stand and nurse.

The mare owner agrees that the mare shall be healthy and in sound breeding condition and that a veterinarian's certificate with a "clean" uterine culture shall accompany the mare. If the owner has not had a uterine culture performed prior to the arrival of the mare at Greentree Ranch, the mare owner agrees to have a uterine culture performed on the mare, at the expense of the mare owner, before breeding.

Prior to the mare's arrival at Greentree Ranch she must have been wormed within the 30 days previous and be current on her yearly vaccinations including but not limited to: Eastern and Western Encephalomyelitis, tetanus, influenza and Rhinopneumonitis and West Nile Virus. The final West Nile Virus Shot must be performed a minimum of six weeks before the arrival of the mare at Greentree Ranch. Should the mare die or become or be deemed unfit for service, the mare owner may, with the permission of Greentree Ranch, substitute another mare or withdraw from the contract. No refund will be due if the mare does not settle.

Greentree Ranch agrees to provide breeding for the mare for up to 4 heat cycles in 2008 and, if necessary, up to 3 heat cycles in the following year. Each subsequent year

breeding is required, after 2009, a re-booking fee of \$100 is required. If the mare does not conceive during the first year of the contract, a uterine biopsy is strongly recommended. If the mare does not conceive during the following breeding season, it is recommended the mare owner withdraw from the contract or that another mare be substituted. If another mare is substituted the contract will be extended to cover breeding her.

Breeding is defined as artificial insemination, hand breeding or pasture breeding as deemed prudent or necessary by the stallion owner/manager or our attending veterinarian. Should the stallion die or become unfit for service, before conception, this contract shall become null and void or the mare owner may elect to transfer the contract to Greentree BrigdierGeneral AMHR #163591 for a future breeding.

The mare owner understands that while all reasonable safety measures shall be taken, injury and illness do sometimes occur. The mare owner shall not hold Greentree Ranch Ltd. or its employees, responsible for any accident, illness, or death of the mare. It is further understood the mare owner shall not be held responsible for any injury, illness or death of the stallion, unless caused by a condition of the mare concealed or falsified on any required report to the stallion owner.

I have read and agree to all the above conditions.
